

ANMA Sharing – new developed study program

Relocated Study Programme in Holstebro

Main subject: Co-creation (Artistic Citizenship).

From 2027, a new teaching structure will be introduced centered on educating professional co-creators—entrepreneurial, innovative musicians working across disciplines and stakeholders

New Educational Framework

Rethinking Education – Stronger focus on project-based learning

From Exception to Norm – Every week as a project week with rotating instructors and content

Proven Demand in Holstebro – Students and teachers call for more project-based learning

Aligned with Reality – Reflects how co-creation happens in real-world projects

ANMA Sharing – new developed study program

Teaching Format

Primarily project-based learning (with a few core subjects such as main instrument, ear training, and theory)

A new project each week

Approximately 10 projects per semester

ANMA Sharing – new developed study program
